

Dear Math Student,

**PLEASE READ ALL DIRECTIONS BEFORE YOU BEGIN.**

**This packet is NOT optional. Every student taking a math course is required to complete this summer work.**

This packet contains material that is intended to be a review of fundamental concepts and methods covered in previous courses.

Do not try to do the entire packet in one day!!

Do not wait until the night before school starts to begin this assignment!!!

**This packet will be collected on the first day of class** and will be worth 25 points; you will lose 5 points for each school day that it is late.

It is the expectation of the St. Mary Academy – Bay View Math Department that this assignment will represent your best effort. If you work with a tutor or any other outside assistance, use these resources as a means of reviewing the concepts and skills covered in the packet.

All work should be done on loose-leaf paper; answers only are never acceptable. Make sure to number each example and either circle or highlight your answer. Record your answer on the problem sheet itself or on the answer sheet, if one is provided. Be neat and organized! Make notes or leave comments on the problems that cause you difficulty.

The following list of websites are available for you to use as a review, if necessary.

[www.flippedmath.com](http://www.flippedmath.com) Search Alg 1, Geom, Alg 2, PreCalc

[www.patrickjmt.com](http://www.patrickjmt.com) Search Algebra, Trigonometry

[www.solomonstick.com](http://www.solomonstick.com) Search PreAlg, Alg 1, Geom, Alg 2, PreCalc

You can also google YouTube and Khan Academy for specific videos.

Please feel free to email one of us if you have questions or concerns about this material.

Have a great summer!

Patricia Lindley
